DRONEdays

What is the **most exciting** and **cost-effective** way to deliver **coding** within your Computing Curriculum?

With a DRONEdays experience!

from
£250

Your day will include:

- ◆ Up to five 1-hour sessions providing an opportunity for **150 pupils** to have a fantastic DRONEday experience
- ◆ A **customised** package designed specifically to meet the requirements of your pupils and curriculum, and structured to fit your school day
- ◆ Many elements of **programming** from the Computing Curriculum at KS1 and KS2
- ◆ All of the resources for the day (including **iPads** and **drones**) set up in your venue professionally and safely
- ◆ Fully qualified and experienced staff with enhanced DBS
- ◆ **None** of the worry about buying and maintaining expensive equipment
- ◆ An **exciting experience** that your pupils will still be talking about weeks later

Your pupils will have:

- ◆ An engaging and stimulating coding session that encourages independent learning and develops problem-solving skills
- ◆ Hands-on practical learning that is memorable and accessible to all year groups and abilities
- ◆ The opportunity to develop and consolidate existing STEM knowledge and skills (particularly in Maths)
