Teaching our future stars the **POWER** of knowledge!

Educational Workshops

With over 20 years of **OUTSTANDING** Science teaching and a background in industry, **Super Science Stars** offers hands on **INSPIRING** Scientific experiences for both children at Nursery and Primary school. We tailor our packages to meet the needs of **INDIVIDUAL** schools and nurseries ensuring National Curriculum objectives are covered in the packages and exhilarating **STEM** challenges that we offer, for the **Super Science Stars** in your classroom.

We Offer

$$g = 9.8 \text{ m/s}^2$$

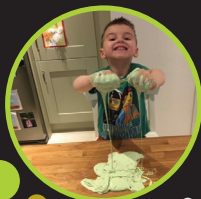

CSI After School Workshop

- * Free 30 minute consultation to establish your requirements.
- * Hands on **ENGAGING** practical experiments with secure links to your chosen classroom topic.
- * All our budding Scientists that demonstrate the Super Science Stars Core Values receive a certificate of recognition.

Super Science Stars needs you! We are looking for the next generation of budding Crime Scene Investigators. Using problem solving skills, teamwork and more importantly their imaginations can your pupils rise to the challenge to solve a puzzling mystery?

Contact us for a price for your full or half day project or after school workshop.

Find us at www.stemdirectories.org.uk and apply for a royal institution grant of up to **£500** for your **Super Science Stars** project!

$$a^2 + b^2 = c^2$$

$$V - E + F = 2$$

$$E = MC^2$$
