

# Icicle crossword puzzle

Can you find some of the words we've used in our experiment in the puzzle below?

**Across**

- 4. Solid structure with particles in a geometric shape
- 5. The process of water becoming warmer and "drying up"
- 7. An icy structure you see in wintery weather

**Down**

- 1. Two or more substances combine together but stay the same
- 2. Two or more substances combine together which become a new substance
- 3. What happens to a solid when it becomes part of a solution
- 6. An ingredient in the solution we made in our experiment
