

you need:

- 25 counters
- 1-6 dice

Cover up

21	22	23	24	25
20	7	8	9	10
19	6	1	2	11
18	5	4	3	12
17	16	15	14	13

Waste bin

How to play

Your aim is to cover as many numbers with counters as you can.

Put a counter on 1.

Now roll the dice and put down a counter, obeying these rules:

- you may only put the counter next to an existing counter
- the counter must go on a multiple of the dice-number
- if you can't find a place on the grid for the counter, put it in the waste bin

Go on until you have used up all your counters.

Do the puzzle again, and see if you can cover more numbers. Try to work out useful strategies to help you cover the most numbers.

Reminder

You may only put a counter above or below or next door to an existing counter. Placing it diagonally is not allowed

This is OK

21	22	23	24	25
20	7	8	9	10
19	●	●	2	11
18	5	●	3	12
17	16	15	14	13

This is NOT OK

21	22	23	24	25
20	●	8	9	10
19	6	●	2	11
18	5	●	3	12
17	16	15	14	13
