

Square number pattern

1. Work out how many small squares are in each of the large squares. Put the answer in the bottom right hand square. Some have been done for you.

1

2. Imagine you piled the squares on top of each other, like this.
Write in all the missing square numbers.

3. Complete these multiplications.

$1 \times 1 = 1$

$6 \times 6 =$

$2 \times 2 =$

$7 \times 7 =$

$3 \times 3 =$

$8 \times 8 =$

$4 \times 4 =$

$9 \times 9 =$

$5 \times 5 =$

$10 \times 10 =$
