

you need:

- counters in two colours
- bean

Halves and quarters for 2 players

Put the bean here, on 11.

When it's your turn

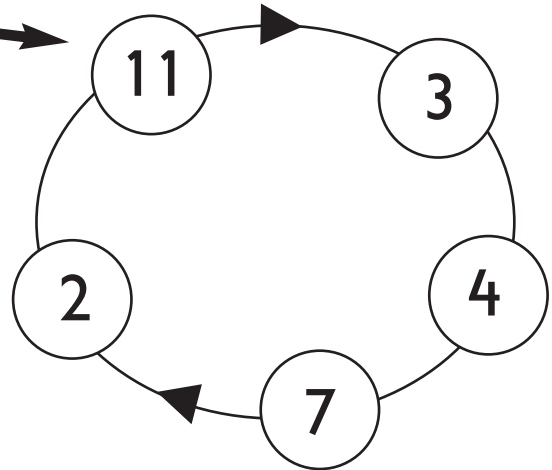

Move the bean either one or two jumps – you choose. Read out what it says.

Find $\frac{1}{2}$ or $\frac{1}{4}$ of that number. Put a counter on the answer on the grid.

Go on until one player has made a line of three counters in your colour.

They win.

Go on until one player has won three games.

2	1.5	0.75	1	3.5
1	5.5	2.75	0.5	1
0.5	3.5	1.5	2	1.75
1	0.75	1.75	2.75	5.5
2	0.5	1	5.5	2.75
