

# Possible or impossible?

Use the array of dots to try and draw the following shapes.  
If the shape is not possible, explain why not.

1. A quadrilateral  
with 2 or more right angles.

2. A triangle with 2 right angles.

3. A pentagon with 4 right angles.

4. A decagon with 8 right angles.

5 & 6. Now make up two similar  
descriptions for a friend to try.  
Use the back of the sheet.
