# Coordinate Messages

This message is

(1,5)(2,5)(3,5)(4,5)(5,5) (2,2)(4,5)(5,5)(1,4)(1,5)(5,5)

S M I L E P L E A S E

5	S	M	I	L	E
4	A	B	C	D	F
3	G	H	J	K	N
2	O	P	Q	R	T
1	U	V	W	X	Y
	1	2	3	4	5

What do these messages say?

(5,2)(2,3)(3,5)(1,5) (3,5)(1,5) (1,4) (1,5)(5,5)(3,4)(4,2)(5,5)(5,2) (2,5)(5,5)(1,5)(1,5)(1,4)(1,3)(5,5)

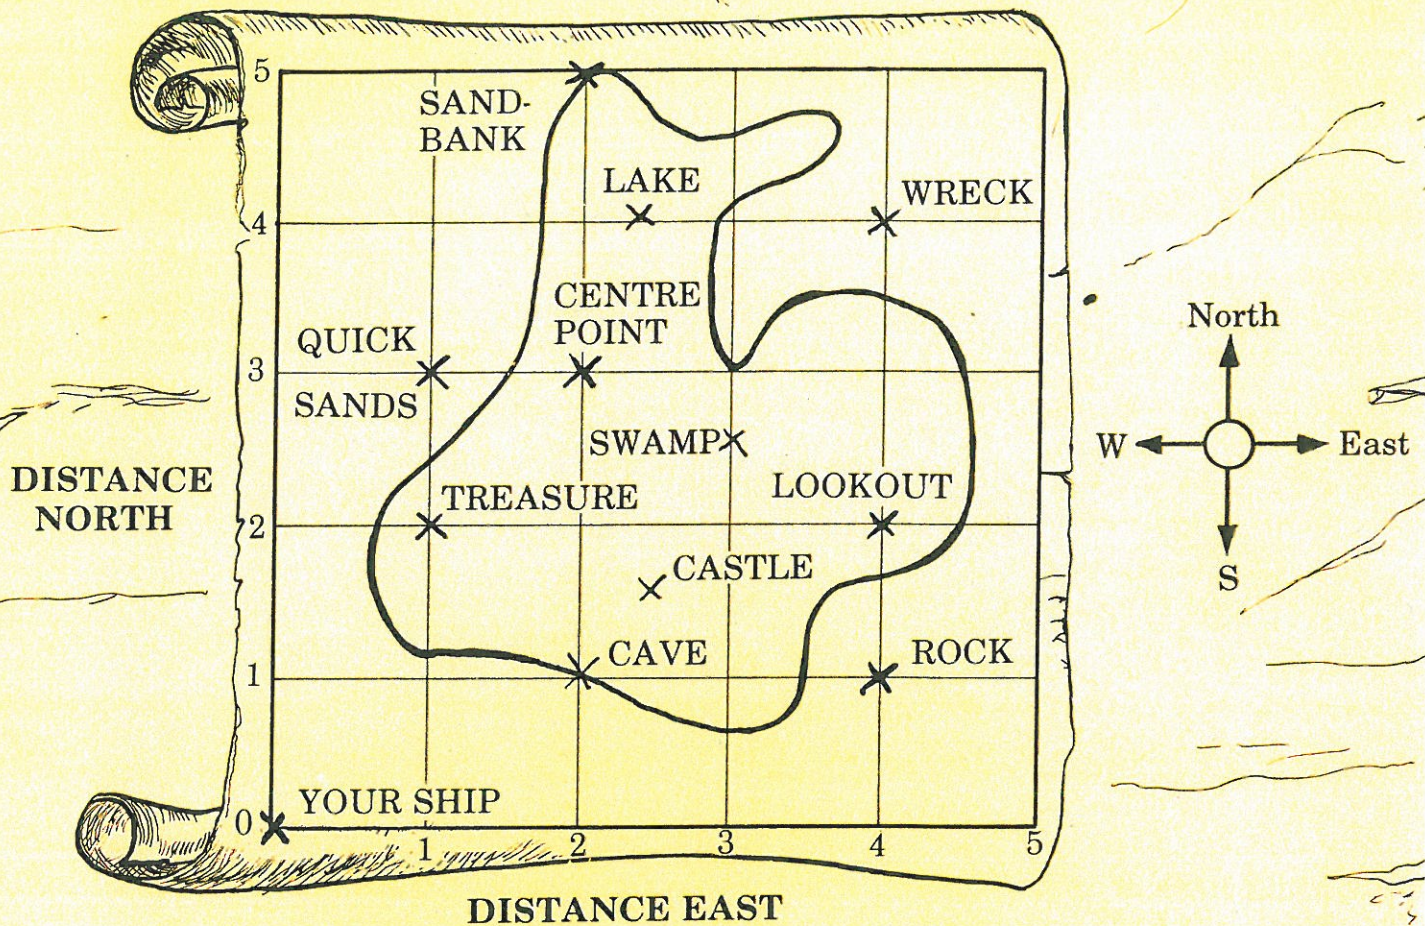

(5,1)(1,2)(1,1) (2,3)(1,4)(2,1)(5,5) (1,1)(5,3)(4,4)(5,5)(4,2)(1,5)(5,2)(1,2)(1,2)(4,4) (3,5)(5,2)

(3,1)(5,5)(4,5)(4,5) (4,4)(1,2)(5,3)(5,5)

If you liked this work send  
a message to a friend.

## Co-ordinates

Find the ship on the map.  
 Move 2 east, and then 1 north.  
 You should be at the CAVE.  
 The position of the CAVE is:

(2, 1)  
 Distance East      Distance North

- (1) Copy and complete  
 The cave is at (2, 1)  
 The ROCK is at (4, ■)  
 The WRECK is at (■, ■)  
 The TREASURE is at (■, ■)
- (2) a) What is at (2, 5)?  
 b) What is at (2, 1)?  
 c) What is at (1, 2)?  
 d) What is at (4, 2)?
- (3) a) What is at (3, 2½)?  
 b) What is at (2½, 4)?  
 c) What is the position of the castle?
- (4) If you enjoy making up maps draw one of your own.  
 Write down the positions of all the places you mark.

**Remember:**

Always start at the ship (0, 0)  
 The first number is the Distance East  
 The second number is the Distance North

You will need 2 copies of worksheet 0853A.

## Grids

- 1) Copy and complete:
  - A is at (1, 1)
  - B is at (3, 1)
  - C is at
  - D
  - E
  - F
  
- 2) Use one copy of worksheet 0853A
  - plot the points A, B, C, D, E and F on each grid.
  - Join up each set of points.
  - Colour in each new shape.
  
- 3) Now use the other copy of worksheet 0853A. Draw a shape of your own on grid 1 and see how this changes. *Choose an easy shape which fits on the grid lines.*

How do the shapes change? *Talk about this!*

Turn over.

# Cartoon Coordinates

Joining the coordinates listed on this side will give a drawing of a bear. On the other side joining the coordinates will give a drawing of a landscape. Choose which one you want to do.

## Bear

Draw a grid which goes across to 20 and up to 31. Plot the points and join them up with a ruler as you go. Stop at the end of each section.

- (3,11) (8,5) (3,21) (5,1) (19,12) (7,20) (7,10) (7,10)
- (2,13) (8,23) (5,26) (17,1) (17,12) (7,21) (7,11) (7,11)
- (2,19) STOP (6,28) (17,2) (17,7) (6,21) (6,11) (6,11)
- (3,21) (10,30) (16,3) (19,7) (6,19) (6,9) (6,9)
- (6,24) (7,5) (12,30) (14,3) STOP (7,19) (7,9) (7,9)
- (10,26) (7,3) (16,28) (11,2) (7,20) (7,10) (7,10)
- (12,26) STOP (17,26) (8,3) (11,24) (15,20) (15,10) (15,10)
- (16,24) (19,21) (6,3) (10,25) (15,21) (15,11) (15,11)
- (19,21) (11,5) STOP (5,2) (12,25) (16,21) (16,11) (16,11)
- (20,19) (11,1) (5,1) (11,24) (16,19) (16,9) (16,9)
- (20,13) STOP (18,29) STOP (15,19) (15,9) (15,9)
- (19,11) (10,31) (15,20) (15,20) (15,10) (15,10)
- STOP (15,5) (12,31) (3,12) STOP STOP
- (3,17) (15,3) (14,29) (5,12) STOP STOP
- (3,5) STOP (5,7) (3,7) STOP STOP
- (19,5) (6,24) (3,7) STOP STOP
- (19,17) (8,23) (7,15) (7,16) (6,16) (6,14)
- STOP (11,22½) (7,14) (7,15) (15,15) (15,16) (16,16)
- (14,23) (14,23) (15,15) (15,16) (16,16) (16,14)
- (16,24) (16,24) (15,14) (15,14) (15,15) (15,15)
- STOP STOP (15,15) STOP STOP

Two circles at (9,25) and (13,25)

## Landscape

Draw a grid which goes across to 32 and up to 30. Plot the points and join them up with a ruler as you go. Stop at the end of each section.

- (8,24) (4,26) (14,5) (1,8) (1,8)
- (10,26) (2,26) (14,6) (13,8) (13,8)
- (10,28) STOP (15,6) (13,10) (13,10)
- (8,30) (16,7) (14,10) (14,10)
- (6,30) (2,10) (17,7) (14,8) (14,8)
- (4,28) (10,19) (18,5) (22,8) (22,8)
- (4,26) (18,10) (19,5) STOP STOP
- (6,24) STOP (20,7) (20,7)
- STOP (21,7) (4,28) (4,28)
- (8,22) (13,16) (22,5) (2,28) (2,28)
- (8,24) (18,20) (23,5) STOP STOP
- STOP (29,10) (24,3) (24,3)
- STOP (24,2) (23,0) (23,0)
- (6,22) (20,18) (22,0) (22,0)
- (6,24) (23,21) (22,2) (22,2)
- STOP (26,18) (18,2) (18,2)
- (12,26) (25,19) (18,0) (18,0)
- (10,26) (27,21) (17,2) (17,2)
- STOP (29,19) (16,3) (16,3)
- STOP STOP (15,5) (15,5)
- (12,28) (14,5) (14,5)
- (10,28) (23,16) STOP STOP
- STOP (28,19) (23,5) (23,5)
- STOP (32,16) (24,5) (24,5)
- STOP STOP (26,3) (26,3)
- (8,32) (27,4) (27,4)
- (8,30) (27,3) (27,3)
- STOP (28,4) (28,4)
- (27,4) (27,4)
- STOP STOP

You will need cm squared paper

Smile 0262

## Co-ordinates 2

- (1) Copy this grid on cm squared paper and mark on all the letters carefully.

- (2) Find the point marked A.  
To get to A. . . . . go across 1.  
then go up 3.
- (3) The co-ordinates of A are (1, 3). Is this the same as (3, 1)?  
Why not?
- (4) Write down the co-ordinates of all the points marked with letters.
- (5) Mark these letters on your grid:-  
L at (3, 7)      P at (0,  $6\frac{1}{2}$ )  
M at (8, 0)      Q at ( $7\frac{1}{2}$ ,  $7\frac{1}{2}$ )  
N at (2,  $5\frac{1}{2}$ )      R at ( $2\frac{1}{2}$ ,  $1\frac{1}{2}$ )

# Fishing

A fisherman starts at the port (0, 0) and wants to navigate safely to his fishing grounds (15, 0).

He must always be more than one square away from any rock and he must stay on the grid lines.

1. Use tracing paper to find the fisherman's route.
2. Write your answer using co-ordinates.  
 $(0,0) \rightarrow (0,6) \rightarrow (\blacksquare, \blacksquare) \rightarrow$

● Dangerous Rocks

You will need the Smile transparency book 0481A

Smile **0481**

## **Where's that Town?**

Turn over to page 1 of the transparency book.

WHERE IS EXETER?

SOMEWHERE IN THE SOUTH-WEST

BUT WHERE EXACTLY?

YOU WILL NEED A GRID IF YOU WANT TO BE MORE PRECISE

Turn over page 2 of the transparency book.

EXETER IS AT (4,2)

1. Use the grid to give the positions of the other towns in England and Wales.

Turn over page 3 of the transparency book.

2. What is the position of Dublin?

BUT WHAT ABOUT GALWAY?

YOU WILL NEED TO MOVE THE GRID

THAT'S NO GOOD - ALL THE POSITIONS WILL BE WRONG

THEN YOU CAN'T DO IT

YES YOU CAN - JUST EXTEND THE GRID AND USE NEGATIVE NUMBERS

Turn over page 4 of the transparency book.

GALWAY IS AT (-2, 9½)

3. Give the positions of the other Irish towns.

Turn over page 5 of the transparency book.

WHAT IS THE POSITION OF PARIS?

I KNOW — EXTEND THE GRID SOUTHWARDS.

CORRECT!  
YOU CAN POSITION ANY TOWN, HOWEVER FAR SOUTH IT IS.

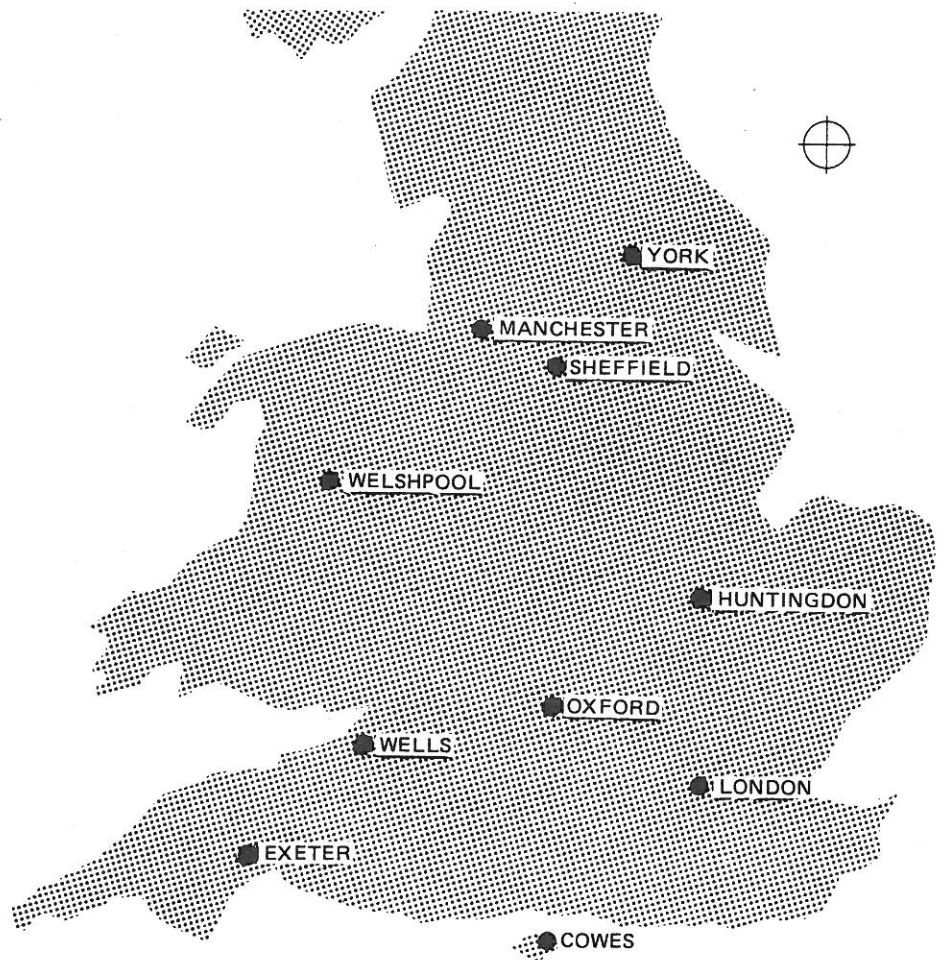

Turn over page 6 of the transparency book.

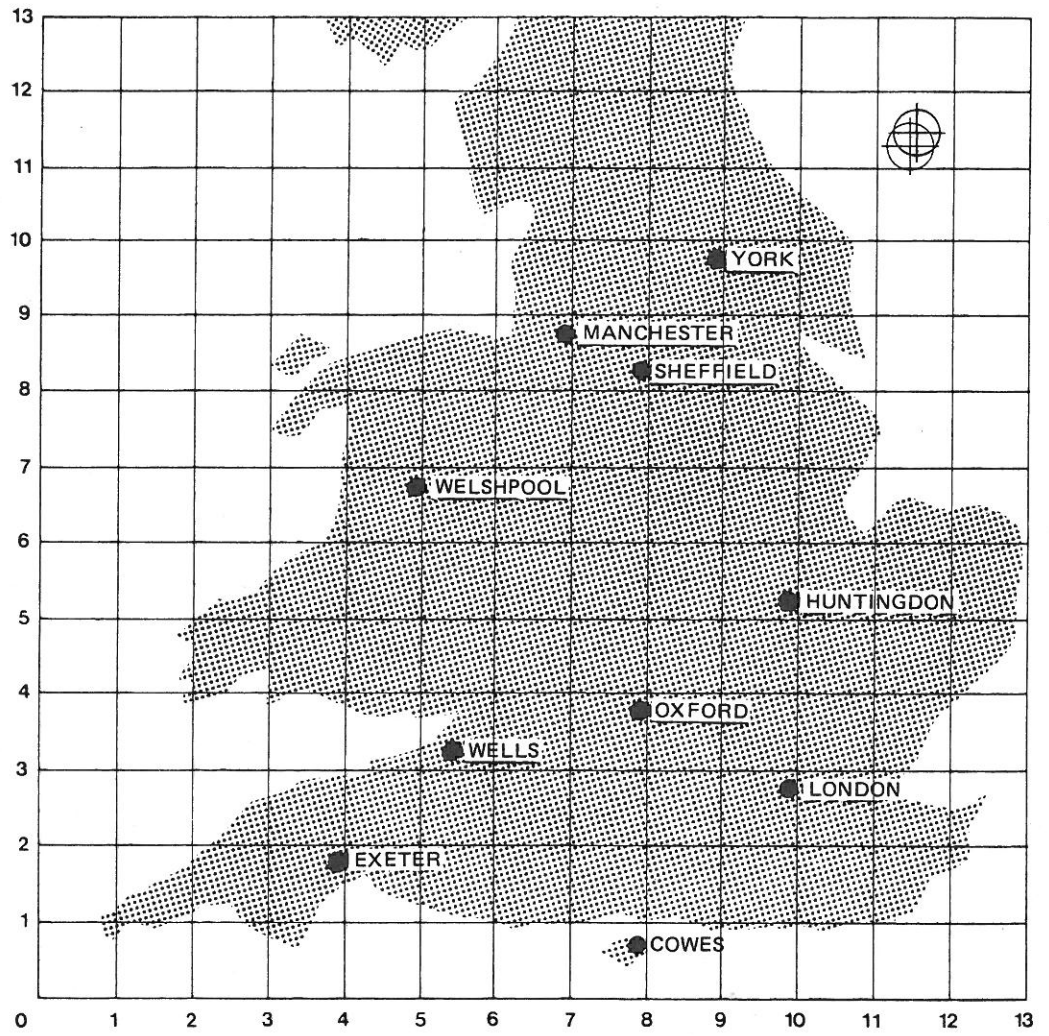

PARIS IS AT  
(+12, -3)

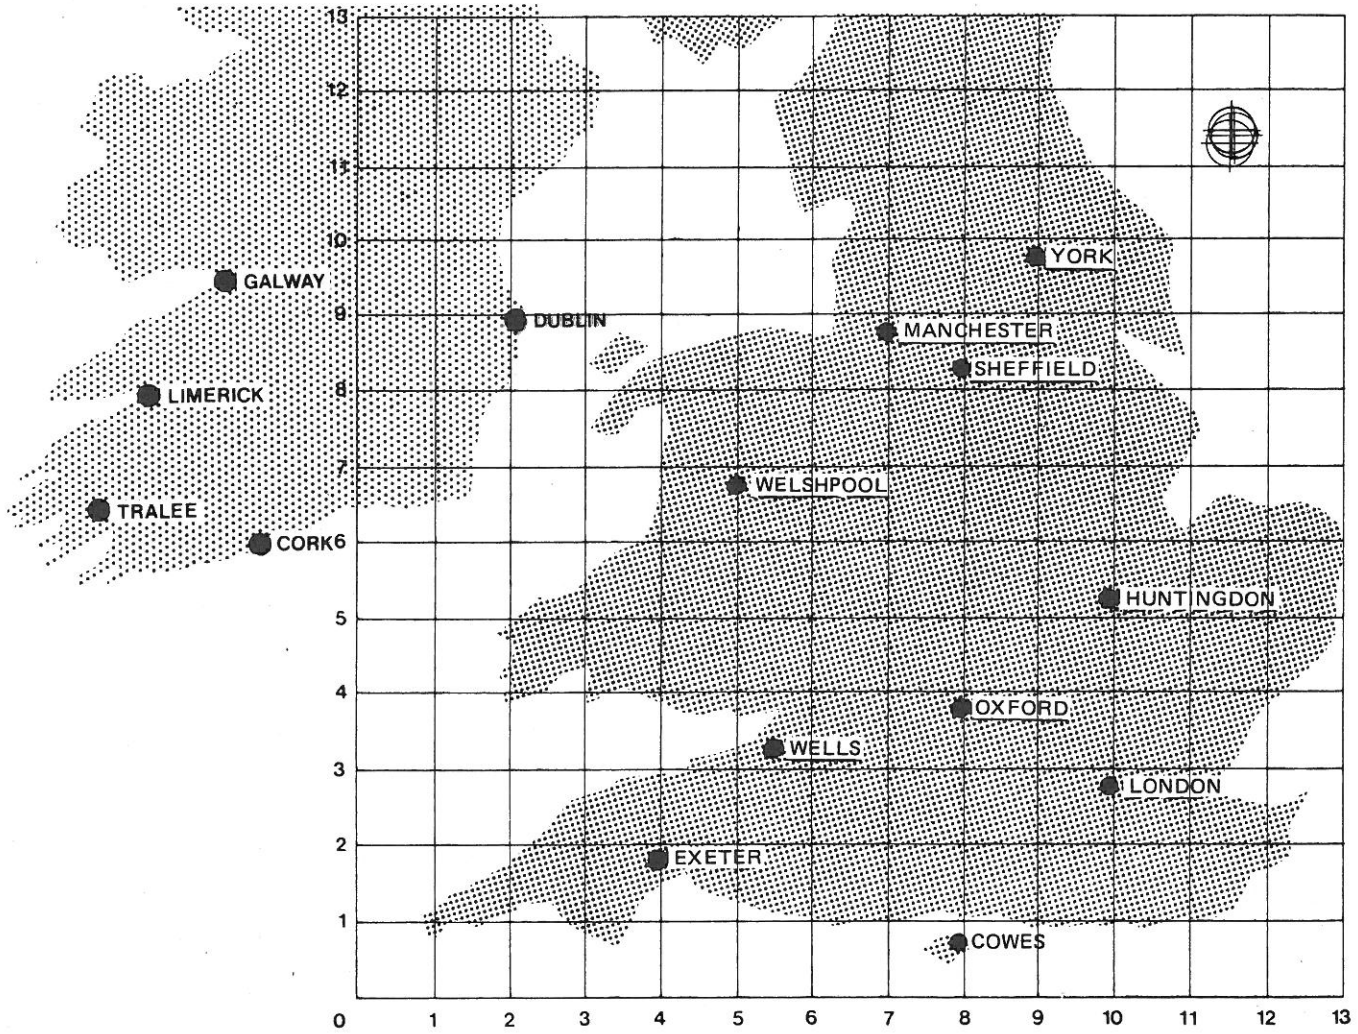

4. Give the positions of the other French towns.

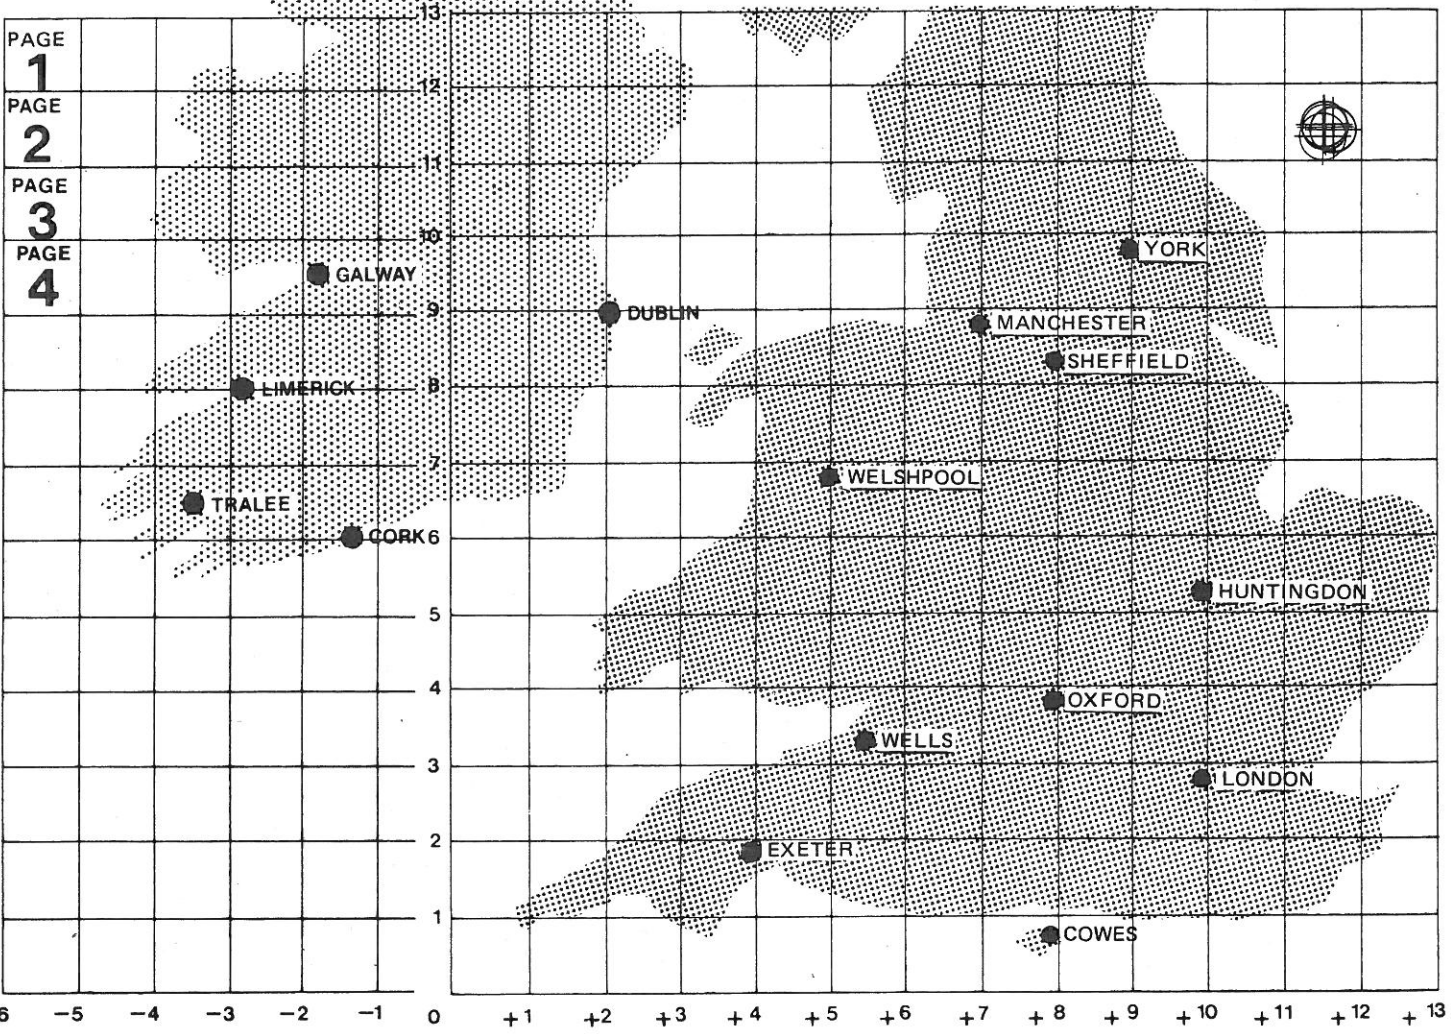

PAGE

PAGE 5  
PAGE 6

You will need: cm. Squared paper

### All Co-ordinates

(1) The co-ordinates of A are (3, 1) xG

What are the co-ordinates of  
B, C, D, E, F and G?

F and G are difficult unless you  
extend the axes backwards.....

Now, using directed numbers,  
F is at (+2, -1)  
G is at (-2, +4)

Just as before, the rule is

(2) What are the co-ordinates of H, I, J, K, L, M and N?

(3) Draw axes on squared paper. Mark on these points:

P at (+3, -3)

T at (+4, +2)

X at (0, -3)

Q at (-4, +3)

U at (+5, -4)

Y at (+5, 0)

R at (-5, -4)

V at (-3, 0)

Z at (-2, +1)

S at (-3, +5)

W at (-4, -1)
