Working in the community means meeting people from many different backgrounds.
The Vedic square is used to make **tiling patterns** in both Hindu and Islamic cultures.

cre*x*ate
maths

The first tile is based on the digital root 5. The second tile is a **reflection** of the first.
Use reflection to complete the tiling. Which **other digital root** would make the same tiling?

working with others

Choose a different digital root to make a new tiling.
Compare the results of using different digital roots.
